GRANT REQUEST GUIDELINES

The Legacy Foundation was established to provide support for individuals, both children and adults, who, through no cause of their own, are socially, mentally or physically deprived. We make grants and contributions to support charitable organizations in pursuit of educational, scientific, charitable and religious purposes.

Organizations submitting projects for consideration must be specific with their request and it must be in writing. Our Foundation is not able to make donations to the "general funds" of an organization. We are interested in providing for projects where we can see the direct impact of our contribution.

Each project submitted will be considered individually and reviewed by a Foundation Board Member. A representative will also visit with your organization to review your proposal in more detail. All organizations elected to receive funding will be contacted upon approval and appropriate arrangements will be made to receive funding.

Photographs and/or video materials of your project or organization are certainly helpful, but not required.
